Previewing Questionnaire

Winter 2020-21 interpreter partner preference survey

 [Print Blank](#)

1 * Your name (first and last)

2 * What is your exam 1 total score (out of 90)?

Do not use thousands separators.

3 How many [late days](#) do you have now?

Do not use thousands separators.

4 Would you prefer to work alone? (no guarantees, but I will consider it). If you work alone, neither I nor the TAs will act as your partner. Only say "yes" if you can mostly work independently and if you had a very high score for exam 1.

☐ Yes ☐ No ☒ No answer

5 If you answered Yes to the "work alone?" question, who was your CSSE 230 professor?

Warnings:

You should not choose partners whose understanding of course material and Scheme programming ability is radically different than yours. Or someone whose work habits or preferred work times are radically different than yours. It is likely to lead to frustration for both of you.

Be sure to ask potential partners about their exam score, and whether there is a chance that they will drop the class. Changing partners in the middle of a project is no fun!

3-person pre-formed team.

If you and two other students have agreed to be a team, enter their usernames below. Remind your partners to list your names here, too. All of you can ignore the rest of this survey,

6 Username of first partner (team of 3):

7 Username of second partner (team of 3):

2-person pre-formed team.

If you and one other student have agreed to be a team, enter their username below. Remind your partner to list your name here, too. Both of you can ignore the rest of this survey.

8 Username of partner (team of 2):

If you did not find your own team, it is important that you list **several** preferred partners. Chances are good that most of your preferred partners have already found teams.

If I do not know your preferences, it will be harder to find a suitable team for you.

Warning: Most self-selected teams work out better than teams that I select. Have you put some effort into finding your own team?

9 Username of your #1 partner preference (does not have to be in your CSSE 304 section)

10 Username of your #2 partner preference (does not have to be in your CSSE 304 section)

11 Username of your #3 partner preference (does not have to be in your CSSE 304 section)

12 Username of your #4 partner preference (does not have to be in your CSSE 304 section)

13 Username of your #5 partner preference (does not have to be in your CSSE 304 section)

14 Username of your #6 partner preference (does not have to be in your CSSE 304 section)

If there are **students whom you'd prefer not to work with**, list them below.
I'll do my best to avoid pairing you with one of them.

15 Username of someone you'd prefer not to work with.

16 Username of someone else you'd prefer not to work with.

17 Username of someone else you'd prefer not to work with.

18 List any additional information that might help me find the best partner(s) for you.
